

Buchan Inspection Ltd is an international engineering company providing engineering services and systems which enable our customers to maintain the capability and availability of cranes, lifting equipment and specialised structures. Key industries in which Buchan Inspection operate include oil & gas, renewables, marine and defence.

Lifting Equipment Lead Inspection Engineers

We currently have a requirement for Lead Inspection Engineers to ensure legislative compliance of clients lifting equipment and lifting operations.

Key Tasks:

- Commissioning, testing, inspection of cranes and lifting equipment as required through statutory legislative regulations.
- Client liaison
- Checking of certification
- Proof load testing at manufacturers' works or fabrication yards
- Final inspection, test and release of equipment on site or at offshore installations.

Experience:

Candidates should be time served in an appropriate discipline, preferably with minimum HNC/ NVQ Engineering qualifications and experience in cranes and/or lifting equipment inspection. The ideal candidate will have previous experience in a similar position within the oil and gas, defence or marine sectors. Current certificates in MPI/DPI/UT/Rope Access are desirable.

To apply, please send your CV to: careers@imes-group.com. Whilst every effort is made to provide feedback on applications, if you have not received a response by Friday 7th November 2008, unfortunately your application will not be taken forward. We thank you in advance for your interest in Imes Ltd.
