

Buchan Inspection Ltd has been involved in the inspection and testing of lifting equipment for over twenty years. Through projects undertaken worldwide for all areas of industry both on and offshore, we have accrued considerable knowledge and experience in the field of thorough examination, load testing of lifting equipment, management of associated databases, risk based inspection and written schemes.

We offer independent and impartial inspection and integrity management services and we have an immediate requirement for:

A CSWIP Welding/NDT Inspector required for two weeks offshore work in the North Sea. Candidates must possess offshore survival certificate and medical and hold current certificates in:

CSWIP 3.1
UT Level II/3.1/3.2
MPI Level II

Competitive rates are offered.

Applicants must be available and ready to mobilise immediately. Interested applicants with the required experience and qualifications should send a full CV and copies of certificates to careers@imes-group.com.
